# WHY THIS CONGRESS?

## THE THREE MAIN REASONS

1. Make the medical profession aware of the role of **SIOOT ozone therapy** in antibiotic resistance which, according to the alarm raised by the WHO, currently represents one of the most fearsome threats to public health. It is predicted that, in the absence of strategies to resolve it, it will cause more deaths than cancers in the coming years.
2. Bring the results of **SIOOT ozone therapy** to the attention of doctors in the treatment of inflammation, with particular reference to chronic pain which represents its natural and disabling consequence.
3. Discuss with colleagues both Italian and from other countries around the world the need to refer to therapeutic protocols shared by the entire medical community because they are drawn not (only) from personal clinical experience but also from scientific literature. The protocols must provide doctors with the certainty that, if followed without exceptions, they guarantee the effectiveness and safety of **SIOOT ozone therapy**.

## SESSION 1

**Moderators: F. Vaiano, A. Galoforo, U. Tirelli**

- 9:30**      **Opening ceremony - Greetings from the Authorities**
- 10:00**      **INTRODUCTION**  
*Prof. L. Valdenassi - Prof. M. Franzini*
- 10:30**      **MASTER LESSON**  
**Oxygen Ozone Therapy mechanisms of action and therapeutic perspectives**  
*Prof. P. Richelmi*
- 10:45**      **Ankylosing spondylitis and ozone therapy. Clinical Case**  
*Prof. L. Valdenassi, E. Rossi, M.T. Corsetti, U. Tirelli, S. Pandolfi, M. Franzini, A. Marcello, S. Chirumbolo*
- 11:00**      **Positive, health and social effects of antibiotic resistance treatment with SIOOT/Multioxygen protocol**  
*Prof. M. Franzini*
- 11:15**      **Mechanism of action, immunomodulatory and therapeutic effects of ozone therapy in sars-cov-2**  
*Dr. A. Cenci, I. Macchia, V. La Sorsa, V. Di Donna, D. Pietraforte*
- 11:30**      **Treatment of the covid-19 virus in 15 different hospitals with oxygen ozone therapy in sedated and intubated patients**  
*Prof. M. Franzini*
- 11:45**      **Ozone therapy in antibiotic resistant infections in orthoprosthetic surgery-**  
*Dr. M. Chierchia, L. Valdenassi, S. Chirumbolo, M. Franzini*
- 12:00**      **Advances in the molecular and cellular biology of ozone action in medicine**  
*Prof. S. Chirumbolo, U. Tirelli, M. Franzini, S. Pandolfi, G. Ricevuti, L. Valdenassi*
- 12:15**      **DISCUSSION**
- 12:30**      **LUNCH**

## SESSION 2

**Moderators: M. Franzini, A. Cenci, S. Chirumbolo**

- 14:00**     **Ozone therapy and multiple chemical sensitivity syndrome (MCS). Clinical Case**  
*Prof. L. Valdenassi, . Rossi, M. T. Corsetti, S. Pandolfi, M. Franzini, U. Tirelli, S. Chirumbolo*
- 14:15**     **Innovation and breakthrough in research for oxygen ozone therapy**  
*Prof. G. Ricevuti*
- 14:30**     **SIOOT oxygen-ozone therapy in the treatment of the symptoms of Multiple Myeloma. Effects on quality of life**  
*Dr. M. T. Corsetti, L. Valdenassi, E. Rossi, M. Franzini*
- 14:45**     **Oxygen ozone therapy in long covid**  
*Prof. U. Tirelli, C. Cirrito, S. Chirumbolo, M. Franzini, S. Pandolfi, M. Pavanello, L. Valdenassi*
- 15:00**     **Study on a cellular carpet of different tissues to develop an algorithm that allows the personalization of the oxygen-ozone mixture automatically**  
*Dr. A. Galoforo, C. Scassellati, C. Bonvicini, P. Bonivento*
- 15:15**     **Role of oxygen ozone therapy in the treatment of ulcerative lesions of the lower limbs**  
*Dr. G. Masiello*
- 15:30**     **Control of intestinal dysbiosis by oxygen-ozone mixture therapy**  
*Dr. F. Vaiano, F. Loprete*

## SESSION 3

**Moderators: L. Valdenassi, R. David, S. Pandolfi**

- 15:45**     **Ozone therapy in the new medicine of complexity**  
*Prof. S. Chirumbolo, U. Tirelli, S. Pandolfi, M. Franzini, G. Ricevuti, L. Valdenassi*
- 16:00**     **Management of mronj patients with oxygen ozone therapy: the results of an effective protocol at ASST FBF Sacco Hospital Milan**  
*Dr. G. Donati, Raina, Busa, Goker, Del Fabbro*
- 16:15**     **Ozone therapy in odontostomatology: a new biological approach to oral cavity pathologies**  
*Dr. M. Babando*

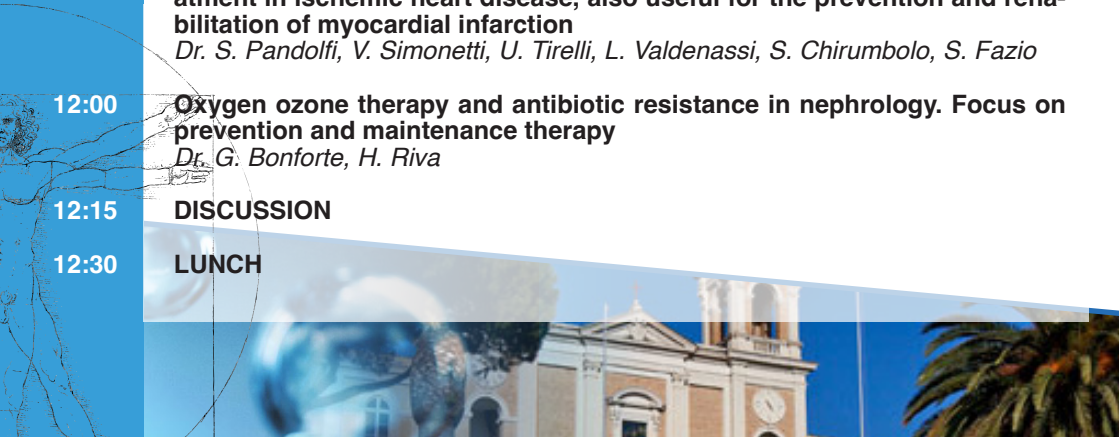

- 16:30**     **Treatment of pain using oxygen ozone therapy in patients undergoing total knee replacement**  
*Dr. G. Poggi*
- 16:45**     **What SIOOT gives you**  
*L. de Laurentiis*
- 17:00**     **Ozone therapy in age-related macular degeneration**  
*Dr. G. Grechi*
- 17:15**     **Ozone therapy in a patient suffering from immune-mediated neuropathy**  
*Dr. E. Rossi, L. Valdenassi, M. T. Corsetti*
- 17:30**     **Immunohistological studies for the evaluation of the dosage ratio between oxygen and ozone for the development of algorithms aimed at personalized therapy with an oxygen-ozone mixture**  
*Dr. A. Galoforo, C. Scassellati, C. Bonvicini, P. Bonivento*
- 17:45**     **DISCUSSION**

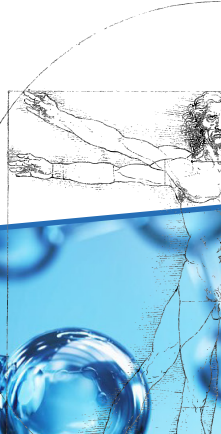

**SESSION 4****Moderators: F. Vaiano, A. Alati, F. Loprete**

- 9:30** **Harmonic integrated therapy: role of oxygen ozone therapy in the treatment of chronic inflammatory bowel diseases (IBD)**  
*Dr. V. Mazzuca Mari, M. Chierchia*
- 9:45** **Synergies between ozone therapy and epigenetic factors**  
*Prof. V. Simonetti*
- 10:00** **Coxo-spino pelvic relationships and oxygen ozone therapy**  
*Dr. P. Bonacina*
- 10:15** **Measurement and analysis by Raman spectromicroscopy of the effects of oxygen-ozone mixture therapy on epithelial cell walls**  
*Dr. A. Galoforo*
- 10:30** **Complex regional pain syndrome type 1 (crps1) treated with oxygen, ozone, systemic and local infiltrative therapy: a case report**  
*Dr. R. Oste*
- 10:45** **Spinal pain in osteoporotic patients: therapeutic protocol with SIOOT oxygen ozone**  
*Dr. A. Romeo, C. Baiano*
- 11:00** **Surgical approach VS conservative treatment of radicular disc impingement**  
*Dr. F. Romeo, A. Rutigliano*
- 11:15** **Ozone therapy and nutraceuticals improve the treatment of acute lumbosciatica**  
*Dr. M. C. Vulpiani, E. Latini*
- 11:30** **Treatment of Behcet's disease in four patients by ozone therapy. Clinical Case**  
*Prof. L. Valdenassi, E. Rossi, M.T. Corsetti, U. Tirelli, S. Pandolfi, M. Franzini, D. Bellardi, S. Chirumbolo*
- 11:45** **Oxygen ozone therapy presents itself as a valid opportunity for added treatment in ischemic heart disease, also useful for the prevention and rehabilitation of myocardial infarction**  
*Dr. S. Pandolfi, V. Simonetti, U. Tirelli, L. Valdenassi, S. Chirumbolo, S. Fazio*
- 12:00** **Oxygen ozone therapy and antibiotic resistance in nephrology. Focus on prevention and maintenance therapy**  
*Dr. G. Bonforte, H. Riva*
- 12:15** **DISCUSSION**
- 12:30** **LUNCH**

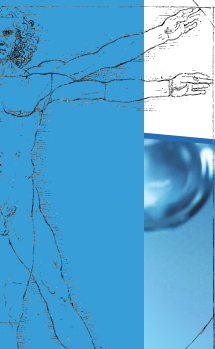

**SESSION 5****Moderators: M. Chierchia, A. Romeo, R. D'Alterio**

- 14:00**     **Cracking the clinical code - ozone therapy in chronic viral infections**  
Dr. I. Guggenheim
- 14:15**     **Let's pick up where Dr. Velio Bocci left off in the field of eboo research by US doctors**  
Dr. T. Lowe
- 14:15**     **Ozone infiltrations in pathologies of the cervical and lumbar spine**  
Dr. F. Pastor Loscertales
- 14:30**     **MASTER LESSON**  
**Scientific and legal importance of shared and declared protocols (materials and methods). Sharing values to create value**  
Prof. M. Franzini, L. Valdenassi, F. Vaiano, T. Richelmi, M. Chierchia, S. Chirumbolo
- 14:45**     **Ozone dialysis provides three or more times the amount of ozone than other forms of ozone blood treatment**  
Dr. R. J. Rowen
- 15:00**     **How Ozone Enhances Microbiome Reparative Therapy MBRT. essential to restore the balance of the body because ozone must be present in every veterinary clinic**  
Dr. M. Roman
- 15:15**     **Non-surgical cervico-occipital decompression with oxygen ozone: about a case**  
Dr. H. Pesantez
- 15:30**     **Pilot study on the use of subtotal treatment of a patient's skin with a mixture of ozone and carbon dioxide for the treatment of hypertension**  
Dr. E. Nazarov

**SESSION 6****Moderators: M. Franzini, L. Valdenassi, T. Richelmi****15:45****Oxygen Ozone Therapy in aesthetic medicine:**

- biovitalization of the face, neck and décolleté
- PEFS: lipolytic and anti-edema effect; reactivation of the microcirculation
- antioxidant and anti-aging function of systemic therapy

*Dr. A. Alati***16:00****From hypoxia to gas gangrene: an operational strategy towards life against antibiotic resistance; the synergies of oxygen ozone therapy with devices adapted to the individual.***Dr. H. Cosolo***16:15****Influence of the intestinal microbiota in low back pain: from modic type 1 to discitis***Dr. L. Morelli, S. C. Bramani, F. Zuccheromaglio, F. C. Morelli,***16:30****Couple sterility, an ever-growing problem: the role of oxygen ozone therapy***A. Irollo***16:45****Oxygen Ozone Therapy in chronic fatigue***Prof. U. Tirelli, C. Cirrito, S. **SESSION 7****Moderators: F. Vaiano, A. Rutigliano, S. Pandolfi**

- 9:30** **Oxygen ozone therapy for neuroprotection and neurovascular diseases**  
*Dr. S. Pandolfi, V. Simonetti, M. Franzini, U. Tirelli, S. Chirumbolo, L. Valdenassi, W. Liboni, F. Molinari*
- 9:45** **Use of oxygen ozone therapy for transrectal insufflations in the treatment of benign prostatic hypertrophy**  
*Dr. R. D'Alterio, S. R. David*
- 10:00** **Oxygen ozone therapy in the treatment of capillaries**  
*Prof. M. Franzini*
- 10:15** **Minor intervertebral disorder of benign origin (ddim) comparison between treatment with oxygen ozone therapy combined with manual therapy vs manual therapy alone clinical cases**  
*Dr. D. Licciardello*
- 10:30** **Avascular necrosis of the femoral head, treatment with oxygen ozone therapy**  
*Dr. T. Richelmi*
- 10:45** **Oxygen ozone therapy - arterial diseases**  
*Dr. A. Nanni*
- 11:00** **Effectiveness of a short cycle of oxygen ozone autohemotherapy (o2-o3 aht) in the mild-moderate post-acute sequelae of covid-19 (pasc)**  
*Dr. S. R. David, R. D'alterio, M. Micarelli, M. Dibitonto*
- 11:15** **Evaluation of body composition of subjects with some forms of cancer before and after treatment with systemic oxygen ozone therapy (GAEl)**  
*Dr. F. Loprete, F. Vaiano*
- 11:30** **Oxygen Ozone therapy in fibromyalgia**  
*Prof. U. Tirelli, C. Cirrito, S. Chirumbolo, M. Franzini, S. Pandolfi, M. Pavanello, M. Beretta, L. Valdenassi*
- 11:45** **Multioxygen SIOOT partner for the drafting of safe and effective therapeutic protocols (materials and methods)**  
*Dr. C. Pedrazzini*
- 12:00** **CLOSURE OF WORK**  
*by the Minister of Health*  
*Hon. Prof. Orazio Schillaci*

## SACRED HEART CATHOLIC UNIVERSITY - ROME

Largo Francesco Vito, 1, 00168 Rome RM

UNIVERSITÀ  
CATTOLICA  
del Sacro Cuore

## HOW TO GET THERE?

From Rome Termini take the Metro Line A (direction "Battistini" to "Valle Aurelia"), then the FL3 train line (direction Cesano-Viterbo to "Gemelli")

Rome's Grande Raccordo Anulare.

From the SOUTH: exit 1 (via Aurelia) or exit 2 (via Boccea) or exit 4 (via Trionfale)  
From the NORTH: exit 6 (via Flaminia)

From Fiumicino Airport, take the FL1 line towards "Fara Sabina" and get off at "Trastevere". Take the FL3 line towards "Viterbo" and get off at "Gemelli"

Line A. Stops: Valle Aurelia – Cornelia or Battistini

On the surface take one of the bus lines 994, 446, 146 and get off at Policlinico Agostino Gemelli

The Rome office is located in the Monte Mario - Trionfale district, within the same area as the Agostino Gemelli IRCCS University Polyclinic Foundation

## VI INTERNATIONAL CONGRESS

16 - 17 - 18 MAY 2024

Sacred Heart Catholic University, Rome

### **SIOOT SCIENTIFIC SOCIETY OF OXYGEN OZONE THERAPY**

Scientific society recognized by the Ministry of Health pursuant to Law 8 March 2017, n. 24. **SIOOT, Scientific Society of Oxygen Ozone Therapy**, is a scientific association that aims to promote research and studies for the development and application of oxygen-ozone therapy.

It was established in 1983 and since then there have been over 4000 registered doctors.

There are also numerous hospitals and universities that practice this therapy. It has organized 15 national congresses, 6 international congresses and 1 **SIOOT** world congress and has drawn up the therapeutic protocols that are used by doctors who have followed training courses and annual updating of the method, as expressly provided for by the Istituto Superiore di Sanità.

**SIOOT** in collaboration with the University of Pavia and Unicamillus University of Rome annually organizes II level Masters in oxygen-ozone therapy.

**SIOOT** members have published over 40 scientific works in prestigious journals on various topics ranging from herniated/protruding discs, Covid-19, chronic fatigue, improvement of systemic and cerebral microcirculation and antibiotic resistance.

**SIOOT** also collaborated on research that generated 15 patents.

***For this great achievement,  
thanks to all members and collaborators***
